

# Michael Sydney Moore

## Senior Frontend Engineer & Product Owner

London, UK | [codemoore@outlook.com](mailto:codemoore@outlook.com) | +44 7920 837066

[LinkedIn](#) | [GitHub](#) | [Design Portfolio](#)

Senior Frontend Engineer with 6+ years of experience designing and building high-performance React applications. Comfortable taking products from initial concept through UX design, frontend architecture, implementation and production release.

My background combines software engineering with visual design. Alongside my engineering career, I am an exhibited artist whose work has been featured in major national publications, including the Daily Mail, and shown in galleries across London, including the Threadneedle Gallery and the National Portrait Gallery. This visual background shapes how I approach product design, interaction design and building intuitive user experiences.

**Core skills:** React, TypeScript, JavaScript, WebGL, Mapbox, Figma, HTML, CSS, REST APIs, Design Systems, Frontend Architecture, Performance Optimisation, Accessibility, Git

## PROFESSIONAL EXPERIENCE

---

### Senior Frontend Engineer

**TradingView** | September 2023 - Present

Work on one of the world's largest financial charting platforms, designing and building complex interactive experiences for a global user base.

- Led the end-to-end design and frontend development of complex geospatial and data visualisation experiences using React, TypeScript and WebGL.
- Owned UX, interaction design and frontend architecture, working directly with product stakeholders from concept through production.
- Defined interaction patterns, visual language and frontend architecture for greenfield products, balancing usability, performance and scalability.
- Designed and delivered the TradingView Universe MVP from concept to production in approximately two weeks, contributing to a significant increase in user sign-ups following social media virality.
- Designed and implemented reusable rendering architecture and UI components to accelerate future development.
- Built performant WebGL experiences capable of rendering complex datasets while maintaining a responsive user experience on a platform serving over 50 million users across more than 50 countries.
- Helped establish engineering standards through architecture discussions, code reviews and technical leadership.

### Frontend Lead

**Browser London** | February 2022 - November 2023

Led frontend development across client projects, owning architecture, implementation and technical delivery.

- Led frontend architecture across multiple production applications.
- Built scalable component libraries and frontend foundations to improve delivery speed and consistency.
- Worked closely with designers and stakeholders to turn product ideas into production-ready software.
- Mentored engineers through code reviews, technical planning and implementation guidance.
- Delivered frontend projects in fast-moving environments with changing requirements.

### Frontend Developer

**M10C** | June 2020 - March 2022

- Built modern React applications and reusable UI components for commercial clients.
- Collaborated across design and engineering to deliver responsive, production-ready interfaces.

### Frontend Developer

**3DPK** | December 2019 - May 2020

- Specialised in building an MVP using Mapbox and Three.js that launched the company's product, helping secure long-running client contracts for the founders.

## PERSONAL PROJECTS

---

### Psychodynamic Therapy Companion

Designed and built a digital companion to support people in psychodynamic therapy by improving engagement and therapeutic outcomes.

- Owned the product from concept and UX design through frontend implementation and release on the App Store.

### Sober Dating Platform

Designed and built a dating platform for people living alcohol-free lifestyles.

- Created the product, user experience and frontend application from scratch.

## EDUCATION

---

### BA (Hons) Fine Art (Partially completed)

Central Saint Martins, University of the Arts London

### Foundation Diploma in Art & Design

Central Saint Martins, University of the Arts London
